

GENERAL INFORMATION

DESCRIPTION

Rizolex® 50WP is a fungicide for control of soil borne diseases in Lilies. The soil borne diseases include those caused by *Rhizoctonia spp* such as Grey bulb rot and Damping off in Lilies and those caused by *Scelerotinia spp* such as Crown rot in Lilies.

MODE OF ACTION.

Rizolex® 50WP is a non-systemic, contact fungicide. It is fungitoxic to mycelia and sclerotia. Rizolex® 50WP is both preventative and curative.

DIRECTIONS FOR USE.

Rizolex® 50WP is applied as soil drench, soil incorporated, bulb powdering or through bulb dipping.

Crops	Target diseases	Application methods and rates
Lilies	<i>Rhizoctonia spp</i> (grey bulb rot) <i>Scelerotinia spp</i> (Crown rot)	1. In furrow spray-use 2gms per metre of row. Mix well with soil and irrigate. 2. Soil incorporation-use 2-4gms/m ² with high water volume. Subsequent irrigation helps in distribution.
	<i>Rhizoctonia spp</i> (Damping off)	3. Bulb powdering—Use 50 to 100gms of active ingredient per 100kgs of bulb. 4. Bulb dipping—Prepare a 2% solution by mixing 20gms of the product with every 1000kgs of water. Ensure complete emersion of the bulbs.

PHYTOTOXICITY

Rizolex® 50WP is not phytotoxic when used as recommended.

HANDLING PRECAUTION

- Rizolex® 50WP is harmful to human beings if swallowed . It is irritating to the eyes.
- Do not smoke, drink or eat while using this product.
- Avoid eye contact. Wear safety goggles when handling the product.
- Avoid spray mist and exposure to the product. Wear rubber gloves and mask covering nose and mouth. Wear protective clothing such as long-sleeved shirts, long pants and rubber boots when handling the product.
- After application wash yourself and your work clothes.

DISPOSAL

Surplus product, if unused should be disposed off according to national regulations on chemical disposal on a landfill site approved for pesticides in a safe place away from water sources. Do not use empty container for any other purpose. Empty containers are to be triple rinsed, flattened, perforated and disposed off on a landfill site in a safe place away from water sources in accordance with national regulations on chemical disposal.

SPILLAGE AND LEAKAGE

Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal, sawdust). Collect and transfer the product into a properly labelled and tightly closed container. Clean contaminated floors and objects thoroughly, observing environmental regulations. Spilt product must not be re-used.

ENVIRONMENT AND WILDLIFE

Rizolex® 50WP has considerable short persistence in the environment. It has no adverse effect to beneficial organisms. However do not contaminate water sources and supplies by disposal of product waste. Keep livestock out of treated areas.

FIRST AID INSTRUCTIONS

In case of eye contact: Flush the eyes with running water for at least 15 minutes while holding eyelids open to help flush out material. Contact a physician immediately.
